

SO, YOU HAVE SOME ITEMS YOU WISH TO SELL? — HERE'S HOW WE WORK.

DROP OFF

- We choose the items we think we can sell on today's market.
- We write your items up individually, on a docket (you get a copy), when you drop them off.
- We may ask you to leave them with us if we are busy, and you will fill out a "Fast Track Drop Off" form with your details and number of items left.
- We process the incoming items in the order that the customer comes through the door.
- If we don't process your order straight away you can elect to have your docket posted to you, to save coming back, or we can file it awaiting your next visit.

SELLING PRICE / PAYMENT

- We set the selling price, and you receive 40% of the selling price.
- After six weeks, unsold items will be reduced to half price - in this instance you will also receive 40% of the reduced price.
- The selling price is written on your docket.
- You will receive payment for items sold by way of a cash cheque.
- Items are kept instore for 2 months. After 6 weeks, they will be reduced in price to help them sell.
- It is up to you, to keep an eye on the movements on your dockets/items.
- You may, at any time, phone us to ask how your sales are going. You will need to quote your docket number/s when you call.
- You can receive payment for items sold at anytime during the 2 months selling period, BUT you must have the docket with you!
NO DOCKET – NO PAYOUT!!
- No weekend payouts unless prior arrangements are made.

PRESENTATION / UNSOLD ITEMS

- All items of clothing must be presented washed and ironed.
- No items will be accepted if they have holes, or stains, or buttons missing etc.
- Items other than clothing must be clean, dust free and be ready for sale.
- All items left are at your own risk. Devine Clothing will accept no responsibility for lost or stolen goods. However all care will be taken and we will do our best to minimise this risk.
- Please be aware that the level of stock accepted is determined by what we require at the time you drop items off. Not every item you bring to us is needed or what we are looking for.
- Unwanted items will be stored ready for you to collect the next time you are instore.
- We do offer a community service, where we like to donate to needy charities, i.e women's refuge, under-privileged youth looking for work clothes, needy families, or the local churches. This is another option where you may choose to donate any unwanted or unsold goods to other needy people in the community!

STOCK LEVELS / SEASONAL PRICING / UNSOLD ITEMS

- Our stock levels and pricing can be determined also by the weather, and is seasonal, just like normal retail stores. It is a changeable market, and we like to price according to what other stores are doing, going into sale time. We may also need to be price competitive.
- Due to limited space, we have to put an expiry date on when we expect you to collect your unsold goods. Any goods not collected by the due date will be presumed unwanted and will be donated to charities mentioned overleaf.

We look forward to working with you, and hopefully we can earn some great cash for you!

If you have any questions, please don't hesitate to phone me:
